Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

04/25/19 - 05/01/19

Thursday-Saturday

- Warm conditions over the next few days will continue melting of snowpack and lead to rises in rivers and streams. No significant flooding impacts are expected at this time.
 - Much of the state will have low risk for heat impacts for those populations extremely sensitive to heat, especially those without effective cooling and/or adequate hydration.
 - Moderate risk for heat impacts for those who are sensitive to heat in the Inland Region and deserts of Southern Region.
- Isolated thunderstorm potential over mountains across the state, especially in the Sierra.

Sunday-Tuesday

- Next significant chance for showers and thunderstorms will be Sunday through Tuesday.
 - Rainfall chances currently look highest across the southern half of the state.
 - This storm could also be accompanied by gusty winds, especially in Southern Region.
- By Sunday and into early next week, a cooling trend will lead to significantly fewer impacts due to heat.

Wednesday

- Warmer and drier weather currently looks to return for the middle of next week
